E-46 Task Force to Develop Workshop and Guidance      November 2021  
on Radiation Protection Issues Related to TENORM

Charges:

1. To collaborate with state, local, national and international organizations, including the National Council on Radiation Protection (NCRP), the IAEA, the Health Physics Society (HPS), and the International Commission on Radiation Protection (ICRP), in convening a meeting to identify priority issues related to the handling and disposal of TENORM generated during some industrial processes and measures that can be taken to improve protection of workers and members of the public.
2. Planning completed by June 15, 2019.
3. Hold Workshop in conjunction with an International Symposium on NORM (NORM IX) being held in the United States during the week of September 23-27, 2019, in order to attract more international and national participation. Experts in the fields of radiation safety; industrial processes, including oil and gas production, that produce TENORM; waste management; as well as state radiation control staff working on this issue, will be invited to participate and share their expertise.
4. Provide proceedings and outcomes from the workshop by March 31, 2020
5. Report on the results of the workshop at the 2020 CRCPD Annual Meeting.

Note: When a Letter/Number combination appear in brackets after a charge, it denotes how the charge links to CRCPD's Goals and Objectives, as listed in [CRCPD's Strategic Plan](#).
