

CONFERENCE OF RADIATION CONTROL PROGRAM DIRECTORS, INC.

POSITION

Relating to: Nasopharyngeal Applicators

- a. That the states should take appropriate measures to assure the discontinuance of the use of radium nasopharyngeal applicators.
- b. That the states should encourage those licensees/registrants still in possession of the devices to provide for their proper disposal; and
- c. That the states should inform affected licensees/registrants of the CRCPD radium disposal program.

Date: December 15, 1989

Released in memorandum under the signature of Charles M. Hardin, Executive Director.
