CDRH	Donald Miller	(301) 796-3299
EPA	Stefanie Bacon	(202) 343-9063
NRC	Kevin Williams	(301) 415-3340

05/29/18 - ss

SR-AA Suggested Regulations - Part AA:  
Non-ionizing Radiation

May 2018

**Charges:**

1. Revise the suggested state regulation to:
  - Harmonize with amendments to the FDA radiation safety performance standard for laser products. FDA's regulation effectively adopts the International Electrotechnical Commission (IEC) laser safety standard in recognition that it better addresses current technology and provides equivalent or improved product safety.
  - Split medical use of non-ionizing radiation and industrial use of non-ionizing radiation into two sections.
  - Include cosmetic use of non-ionizing radiation as a medical use, including microwave and RF used for medical cosmetic treatments that may cause patient burns. [G1 – O2, O4]
2. Identify states with non-ionizing testing and/or inspection programs to determine training needs and address implementation issues (i.e., report listing state programs, questionnaire/poll results of training needs) [G1 – O3, O4]
3. Develop and/or identify educational training resources to facilitate transition to new performance requirements (i.e., list or public/private resources available) [G1 – O3, O4]

Note: When a Letter/Number combination appears in brackets after a charge, it denotes how the charge links to CRCPD's Goals and Objectives, as listed in [CRCPD's Strategic Plan](#).

If interested in serving on this working group, contact the council chairperson via email [angela.leek@idph.iowa.gov](mailto:angela.leek@idph.iowa.gov)
